

Exercise Guidelines

EPL231 – Data Structures and Algorithms

Instructions

- Exercise test will be done on the date of delivery: 15/10/2009
- What to deliver:
 - Report with description of your algorithms and any assumptions you make + printed code
 - Source Code
 - MS Visual Studio (2005, 2008 or 2010)
 - Solution + Source code
 - Delete: Debug + Release Folders, *.ncb file
 - Code::Blocks
 - Project Directory
 - Delete: Produced binary files
 - Linux
 - Makefile + Source files
 - Delete: Object Files + Executable

Instructions

- Deliver code + report by email before the lab:
totis@cs.ucy.ac.cy
- In addition to the correctness of your program you are going to be graded on:
 - Clean Code
 - Comments!
 - PLAGIARISM!! CLOPY-Right, Αντιγραφή, “Συνεργασία”
- Advice:
 - Break down the problem into smaller manageable subproblems

GOOD LUCK
