

CALL FOR PAPERS
Special Issue on
Biomedical Informatics

The aim of this special issue is to provide a snapshot of emerging technologies in biomedical informatics, based on a selected number of papers presented in the Information Technology Applications in Biomedicine – ITAB 2009 conference. Authors are invited to submit papers expanding their work presented at the ITAB 2009 conference.

Regular papers can be submitted each having a maximal length of 7 printed pages. Only original and well-focused papers presenting previously unpublished work will be considered. The review will take place within 4 months and only papers with minor revisions will be accepted.
