Project Implementation Report

Following the project implementation report, we should seriously consider to offer most of the training sessions in an online model, in comparison with having fewer online sessions and the majority being held in situ in the hybrid approach.

For training in BSNB Management & training in Civility, ISLA proposes:

- To evaluate conditions for the realization in person and, if there are no conditions to do it in person on time - until the end of the **1st semester of 2021 (May or September 2021?)** it will be triggered online.
