

IMAGINE CUP CYPRUS 2012 LAUNCH OCTOBER 31ST, 2011 AT 6PM TO 8PM LOCATION: CS DEPARTMENT, ROOM: 148

Imagine Cup is a global student technology competition focused on finding solutions to real-world issues. The competition encourages the world's most talented software designers, programmers and game developers to tackle, head on, issues related to: hunger relief, poverty, education, disease control, healthcare, the environment, and other crucial problems facing our world today.

This is the world's premier student technology competition and we invite you to join us! Since 2003, the Imagine Cup has been challenging the world's brightest students to step up and make a difference!

You can:

- Contribute your talents to solving some of the toughest problems facing us today, and maybe even turn your ideas into a business.
- Learn new technological skills and test yourself against the brightest students on the planet.
- Make new friends from around the world.
- Win cash and prizes, and even a free trip to Sydney, Australia in summer 2012 for the Worldwide Finals.

AGENDA

What is Imagine Cup? How to Compete?
The DreamSpark Program
The Microsoft Student Partner Program
Windows Phone 7 – Let's build a game!

Step Up to the Challenge!

"Imagine a world where technology helps solve the toughest problems."
