Front-End Developer

Ready to join ImpacTech?

Looking for a real sense of purpose in your work? Have you got what it takes to be a true #Impactivator? Do you have what it takes to lead the development charge in Business Intelligence? Do you want to be part of the Big Data drive changing the way companies do business?

If you answered yes, we'd like to tell you more about ourselves and this position.

We are IMPACT TECH LTD. We believe that great things happen when great people come together. That's how we create the cool tech that's supercharging the businesses that use them. We've created a working environment that provides everything you need to perform at the highest level and we are looking for a Front-End Developer to join our growing team in Limassol.

We've assembled a team of the best Big Data experts and developers and given them a mission to change the way the world does business by providing cutting-edge tools that deliver real results. Our focus is on creating a common set of scalable, data-centric solutions.

What you will do:
- Translate UI/UX design wireframes to actual code to produce visual elements of the application
- Work with UI/UX designers and bridge gap between graphical design and technical implementation
- Develop intuitive web applications
- Optimise application for maximum speed and scalability
- Build reusable code and components for future use
- Collaborate with back-end developers and web designers to improve usability
- Maintain and improve company products
- Participate in code review and team meetings
- Stay up-to-date on emerging technologies

Requirements:
- Knowledge of JavaScript/TypeScript/Angular:
  - Understanding of native JavaScript
  - Familiar with prototyping
- Good understanding of asynchronous request handling, partial page updates, and AJAX
  - Skilled in writing simple module code
- Front-end development:
  - Skilled in HTML5
  - Well-versed in CSS3
  - Adaptive front-end development
  - Cross-browser front-end development
- Well-versed in version control systems (GIT)
- Prior experience with CSS libraries (Bootstrap)
- Team worker, lifelong learner
