

Junior Software Engineer

Do you have what it takes to lead the development charge in Business Intelligence? Do you want to be part of the Big Data drive that changes the way companies do business?

If you answered yes, we'd like to tell you more about ourselves and this position.

We are IMPACT TECH LTD. We're a FinTech company with vision, character and a culture which breeds success and rewards excellence and we are looking for a skilled Junior Software Engineer to join our growing team in Limassol who are working on developing innovative software.

We've assembled a team of the best Big Data experts and developers and given them a mission to change the way world does business by providing cutting-edge, yet cost-effective tools that deliver real results. Our focus is on creating a common set of scalable, data-centric solutions. We are looking for someone to join this effort.

What you will do:

- Plan and develop new software
- Ongoing maintenance of our current software
- Maintain and enhance our websites

Requirements:

- Good understanding of Object Oriented Programming
- Experience with JavaScript, JSON and Ajax
- Experience with JavaScript framework such as jQuery
- Enthusiastic about developing knowledge and skills
- Strong problem solving and critical thinking
- A self-starter, with an eye for detail and good organizational skills

Desirable:

- Familiarity with SQL, Maven, REST, Git

What we offer:

- Challenging and engaging tasks
- Professional growth opportunities
- Flexible work and leave schedules
- A competitive salary with an incentive program that rewards and recognizes outstanding performance
- Opportunity to work in an open and collaborative environment
- Team bonding events

To apply please send us your CV to Careers@impactechs.com
All applications will be treated in the strictest confidence.
